Following the demonstration, the volunteers actively participated in the hands-on training. They were provided with the necessary materials, including recycled paper, seeds, adhesive, and other tools, to create their own Paper Pens and Seed Pens.

Guidance and Support:

Throughout the training, Sri Aneesh Kumar S and other NSS coordinators provided individual guidance and support to the volunteers. They answered queries and helped the participants refine their pen-making skills.

Environmental Awareness:

During the training, volunteers engaged in discussions about the detrimental effects of plastic on the environment and explored sustainable alternatives to plastic products. The session aimed to install a sense of responsibility towards the environment and promote conscious choices in daily living.

Conclusion:

The Paper Pen/Seed Pen making training conducted by the NSS Unit of SSV College on December 25, 2019, was highly successful in achieving its objectives. The hands-on experience of creating eco-friendly pens empowered the volunteers with a practical solution to reduce plastic usage.

The event aligned perfectly with the NSS unit's commitment to environmental sustainability and community welfare. By equipping volunteers with the skills to make Paper Pens and Seed Pens, the training aimed to inspire further initiatives to reduce plastic waste and promote greener practices.

The NSS Unit acknowledges the support and expertise of Sri Aneesh Kumar S, the professional trainer, and Sri Viswan MG, the program coordinator, for their instrumental roles in ensuring the event's success. Going forward, the NSS Unit intends to continue organizing such impactful programmes that contribute to a greener and more sustainable future.
