PROGRAMME REPORT

The seminar on Entrepreneurship as a Career Choice was organized so as to provide participants an opportunity to engage with successful entrepreneurs across various industries. The primary objective was to inspire, educate, and connect participants with successful entrepreneurs who shared their experiences, insights, and lessons learned throughout their entrepreneurial journeys. The managing partner of Varsha Plastics, Mr. Eldhose P.J, was the resource person. He has recently started a venture called Varsha Holidays and Varsha Plastics (Manufacturer and wholesale distributor of pipe, pathy, hose and fitting materials). Participants have got the chance to interact with and learn from successful entrepreneurs who have made a significant impact in their respective industries. Mr. Eldhose P.J started the session by sharing his personal stories, challenges faced, and the strategies that contributed to his success. The resource person's insights into real-world challenges and strategies offered practical knowledge that participants could apply to their own entrepreneurial pursuits. The session helped the participants to get exposed to diverse entrepreneurial experiences and also encouraged them to think creatively and critically about their own entrepreneurial skills. The participants were asked to provide feedback on the seminar at the end of the session. The feedback analysis showed that the participants have acquired understanding about the necessary skills to approach their ventures with a strategic mindset. Overall, the seminar was successful in inculcating the skill sets required for a running business.
