Detailed Detailed Report of the Programme

The Java Orientation Class and Skill Test, conducted by the Department of Computer Science during the academic year 2019-2020, proved to be a beneficial program for the final year student beneficiaries. The orientation class aimed to introduce students to the fundamentals of Java programming language and its applications in the field of computer science. The program took place as part of a skill assessment event organized for students.

The primary objective of the Java Orientation Class was to provide participants with a foundational understanding of Java programming concepts and syntax. It aimed to equip students with essential programming skills necessary for future academic and professional pursuits. The subsequent skill test evaluated students' Java programming capabilities, helping them identify their strengths and areas for improvement. The program provided valuable feedback to the participants, offering insights on enhancing their Java programming proficiency.

In conclusion, the Java Orientation Class and Skill Test conducted by the Department of Computer Science were successful in preparing students for the world of Java programming. The program's outcomes highlighted the significance of providing students with a strong foundation in Java programming and offering them the opportunity to assess and improve their skills. The event's impact will undoubtedly contribute to the students' academic and professional growth in the field of computer science.
